

LYNDENHURST FIGHTS FIRE

**ALL THE MEN IN THE VILLAGE
ARE CALLING OUT AND HELP TO SAVE THEIR
HOME AND PROPERTY.**

**CONVENT LUTHERAN CONGREGATION DIS-
MISSED TO JOIN THE FIRE BRIGADE WHEN
THE SERMON WAS ONLY HALF PREACHED.**

LYNDENHURST, I. L., April 8.—This village has been fighting forest fire for thirty-six hours. Two houses have been destroyed and thousands of acres of pine land have been ruined. The village at one time was in danger of destruction. The fire is still burning briskly.

The flames were first seen about three miles north of the village on Saturday. Burning north of the village in this region during the winter, and the Germans, who compose the greater part of the population, thought little of the fire when it started. The flames, however, fanned by a northwest wind, spread with惊人的 rapidity, and in a few hours the village people realized that the worst fire they had ever witnessed was threatening them. Church and fire department struck its warning. In a few minutes the village fire department, headed by a hundred or more citizens, was on its way to the northward. There was no water to fight the fire, but the men cut rough boughs and apply them to the flames. This was followed by a second, and a third. Then came a fourth, and so on, until the flames went down to the old sawmill house, which was unoccupied, and more than half gone at one time. The wind suddenly stopped, and the danger was thought to be over. A few men remained on guard all night.

This morning the wind blew even harder than yesterday, and the fire again burned rapidly. While the service was in progress at church, the men who had been fighting the fire were nearing the Roman Catholic convent on the north. The Rev. Mr. Stoebermann, pastor, and the German congregation, having given up the services with a prayer, the flames might be quickly extinguished. After minutes the entire entanglement of trees and brush was on fire, and the men worked on and put out the flames. The men worked all day, and the fire was finally put out.
